### Risk Factors

As with all mutual funds, the value of an investment in the Fund could decline, so you could lose money. Bond funds are subject to interest rate risk, credit risk and prepayment risk. When interest rates rise, bond prices generally fall, and when interest rates fall, bond prices generally rise. Currently, interest rates are at relatively low levels. Please keep in mind that in this kind of environment, the risk that bond prices may fall when interest rates rise is potentially greater. Investors in the Fund may be subject to alternative minimum tax (AMT) and certain other state and local taxes. High yield bond investing includes special risks. Investments in lower-rated and unrated debt securities are subject to a greater loss of principal and interest than investments in higher rated securities.

## Performance

### Performance

(Average Annual Total Returns)

Performance returns for periods of less than one year are not annualized.

Performance quoted represents past performance and does not guarantee future results. Please note that the performance shown is since the Fund's inception on 12/31/2009. Because the performance shown is for a short period of time, it is provided for informational purposes only and should not form the basis for an investment decision. Investment return and principal value will fluctuate, so shares, when redeemed, may be worth more or less than their original cost. The Fund's total gross/net annual operating expense ratio as of the most current prospectus for Class A shares is 1.36%/0.35%. The net expense ratio reflects a written expense limitation agreement with RS Investments which will continue through 4/30/11. Class A performance quoted "with maximum sales charge" reflects the current maximum sales charge of 3.75%. Please read the prospectus carefully for more information on sales charges as they do not apply in all cases and if applied are reduced for larger purchases. Any sales charges are in addition to the Fund's fees and expenses as detailed in the Fund's most current prospectus. Fees and expenses are factored into the net asset value of your shares and any performance numbers we release. Total return figures reflect an expense limitation in effect during the periods shown; without such limitation, the performance shown would have been lower. Performance results assume the reinvestment of dividends and capital gains. The return figures shown do not reflect the deduction of taxes that a shareholder may pay on Fund distributions or the redemption of Fund shares. Current and month-end performance information, which may be lower or higher than that cited, is available by contacting RS Investments at 800-766-3863 and is frequently updated on our Web site: [www.RSinvestments.com](http://www.RSinvestments.com).

### Growth of a \$10,000 Investment (Class A shares without sales charge)

Since Inception: 12/31/09

This illustration is based on an initial investment of \$10,000 in Class A shares made on 12/31/09. The illustration represents those of Class A shares without the imposition of any sales charges. If sales charges were included, returns would be lower. Please keep in mind that high, double-digit and/or triple-digit returns are highly unusual and cannot be sustained. Results are hypothetical.

Performance for other share classes will vary.

### Calendar-Year Total Return (%)

Class A

2010

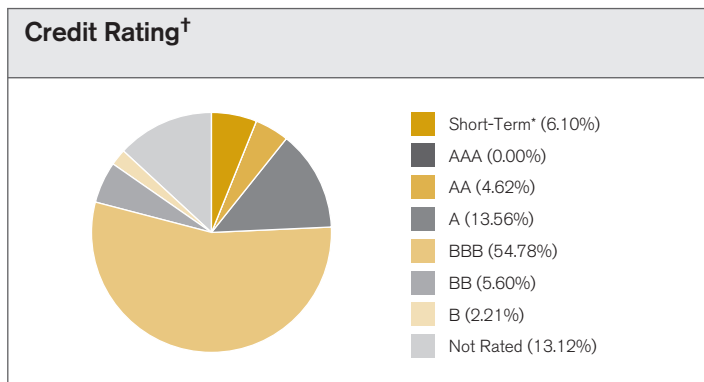

4.74

Please note: High, double-digit and/or triple-digit returns are highly unusual and cannot be sustained. Investors should be aware that these returns were primarily achieved during favorable market conditions.

Returns represent those of Class A shares at net asset value, without the imposition of any sales charges but with dividends and capital gains reinvested from each time period. If sales charges were included, returns would be lower. Performance for other share classes will vary. This information is provided to assist you in assessing the risks of investing in the fund and to demonstrate how the fund's performance varies from year to year.

† The credit rating chart displays the % of fund assets allocated to each rating. Rating agencies' independent ratings of individual securities are aggregated by Barclays and market weights are reported using Standard & Poor's letter rating conventions. Rating methodology uses the middle rating of Moody's, Standard & Poor's and Fitch. When a rating from only two of the rating agencies is available the lower rating is used.

**1** The Barclays Capital Municipal Bond Index is an unmanaged index considered to be generally representative of investment-grade municipal issues having remaining maturities greater than 1 year and a national scope. It is not possible to invest directly in an unmanaged index. Prior to November 1, 2008, this index was published by Lehman Brothers. The Lipper High Yield Municipal Debt Fund Objective Average is the average of all the funds in the group in existence in the Lipper database for all periods, and does not reflect the deduction in sales charges.

**2** An expense limitation determined after taking into account any other expense limitations or fee waivers, including without limitation any reduction of management fees, with respect to the Fund's Total Annual Fund Operating Expenses is imposed pursuant to a written agreement in effect through April 30, 2011. "Net Expenses" reflect the effect of this expense limitation on Total Annual Fund Operating Expenses.

**3** Duration is a measure of bond price's sensitivity to a given change in interest rates. Generally, the longer a bond's duration, the greater the price sensitivity to a change in interest rates.

**4** SEC Yield: With and Without Subsidy figures are provided overleaf. SEC Yield is a standard yield calculation developed by the Securities and Exchange Commission (SEC) that allows for fairer comparisons of bond funds. It is based on the most recent 30-Day period covered by the fund's filings with the SEC. The yield figure reflects the dividends and interest earned
